AWC is now offering Essure permanent birth control

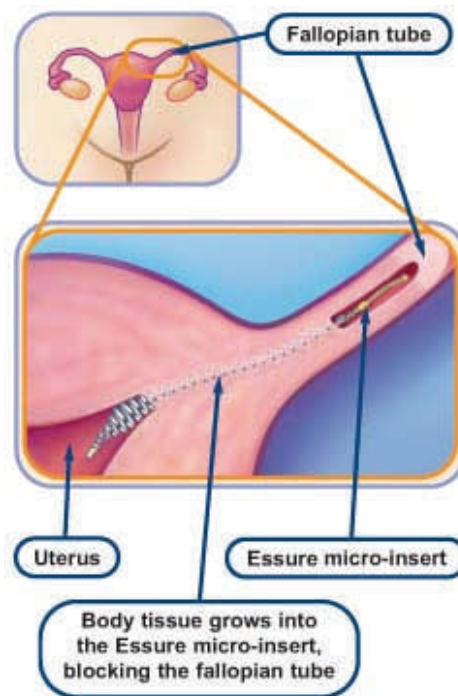

"All Women Count at AWC"

Appointments available now

- No cutting into the body
- No hormones
- Can be safely performed in a physician's office
- Quick return to normal activities
- Covered by most insurance plans

The Essure procedure is the first and only FDA approved female sterilization procedure to have zero pregnancies in the clinical trials. The Essure procedure is permanent and is NOT reversible. Therefore, you should be sure you do not want children in the future. For more information, visit www.essure.com.
